VOLUNTEER EXPERIENCE

Kalbis Institute
Python Conferences Indonesia 2018

OBJECTIVE

I am a college student seeking an Internship position in the field of Soft Computing and Big Data. My knowledge and experience as a programmer allows me to analytic data and make a simulation program such as Cataracts Detection and Film's Rate Simulator based on data.

EXPERIENCES

Internship at PT Immobi Solusi Prima | Jul 2019 - Sep 2019

Data Sciencetist (Analysis Data About PT Pupuk Indonesia)

Process data regarding the distribution of PT Pupuk Indonesia, using the python programming language and make analysis based on data, such as regression correlation analysis.

Kalbis Institute Student Organization | 2018 - 2019

Internal Divison

Arrange all internal campus events related to informatics students from internal competitions and the needs of informatics students such as study rooms, discussions with seniors or provide information about all information regarding informatics.

Python Conferences in Indonesia - PyCon Indonesia | 2018

Volunteer

Ever contributed to python or python conferences which were held in Indonesia precisely at the Kalbis Institute, arranged for the consumption of 600 participants for 3 days and made sure all participants got food and snacks.

Hockey Field Competition | 2015 - 2018

Goal Keeper

Had competed for a Dipo 80 Hockey Club and had competed for the Jakarta Junior Hockey Team in the West Java governor's cup competition in Bandung. had almost joined ASEAN club invitations in Malaysia with the Dipo 80 Hockey Club. I have participated in many competitions in the name of high school or club, I have also participated in national selection to enter the Indonesian team.
